Friday 15th May 2020

Good morning everyone,

I hope you are all well. Another week draws to a close but that is a good thing because it means that we are a week closer to welcoming you back into school. I saw the weather forecast this morning and it looks like we are in for a good weekend so hopefully you will have lots of opportunities to get outside and have some fun, whilst keeping safe and following the government rules of course.

Today's challenge is very open ended and it gives you the chance to be very creative.

Mr Dyson's Daily Challenge

What does 2 meters look like?

I want you to find out how long 2 meters is and think of ways to show me. Here's some ideas but I'm sure that you are more creative than I am and will come up with ways of your own.

1. Make a tower out of lego bricks or building blocks that is 2 meters high.
2. Knit a scarf that is 2 meters long (although this might take you quite a long time!)
3. Go on an adventure around your house or garden, or maybe an outdoor walk with your parents and look for things that are about 2 meters tall or 2 meters long. Maybe take a picture of them on your phone. You could then make a collage.
4. If mum or dad has a tape measure make an obstacle course that is 2 meters long.
5. Make a start and a finish line that are 2 meters apart and see how many hops it takes to get from the start to the finish.

I am really looking forward to seeing how ingenious and creative you can be. I might even share some of the best ideas with you next week in my letters.

Mr Dyson ☺
